Quality Assurance

Products are manufactured under strict quality assurance procedures which are enforced at all times. Manufacturing plants are subject to rules and regulations of the United States Food and Drug Administration (FDA), the United States Department of Agriculture (USDA) and the Department of Food and Agriculture (DFA). Precautions are taken at all steps during manufacture, storage, and distribution to ensure product quality and food safety.

Labeling and Traceability

Packaging contains sufficient details to provide full product traceability. Manufacturers lot code details can be found on DairyAmerica website (www.dairyamerica.com/cooperative).

Storage and Handling

Product is packaged in poly lined multiwall 25kg (net weight) kraft paper bags without the use of staples or metal fasteners. Milk Powder is Hygroscopic and can absorb odors, therefore adequate protection is necessary. It is recommended that product is stored at 80°F or less, with relative humidity of 65% or less, and in an odor free environment. Stocks should be used in rotation preferably within 12 months of manufacture or as dictated by the expiration date labeled on the product.
